LEVEL I CPTED CERTIFICATE COURSE

1.0 Goals

The goal of this basic Crime Prevention Through Environmental Design (CPTED) course, is to provide the participant with a solid, practical, working knowledge of CPTED Principles and Strategies. 1st, 2nd and 3rd Generation CPTED, Community CPTED and SafeGrowth® theory, concepts and terminology will be covered.

To understand the direct relationship between the Physical Environment and Crime and Disorder and real-world strategies to create Safer more Productive Environments and an Increased Quality of Life.

1.1 Strategies

Course instructor will present subjects in classroom and field trip settings, utilizing audio, visual and site inspection techniques and experiences. The bulk of participant learning will be done in a "hands on" manner, utilizing individual and syndicate projects.

Projects, case studies, a written test and group participation will provide the participant with the opportunity to demonstrate their understanding of course objectives. Daily case study assignments will prepare participants for the main syndicate project at the end of the course.

This final project will utilize all Principles of CPTED and touch on architecture, landscaping, land use and lighting. Syndicates will be assigned real world sites to assess and report on and provide their CPTED design strategies for reducing crime and nuisance behaviour through a site plan design.

Each syndicate will make an in-class presentation of their assessment and design on the final day. Presentations will be critiqued and evaluated by classmates and the instructor. Successful participants will be issued with a Level I Basic CPTED Certificate.

Some evening work is involved in Level I CPTED Course. Evening work can be accomplished according to participant's availability.

Level I Basic CPTED Course is a pre-requisite for those wishing to take the 4-day Level 2 Advanced CPTED Course and the 2-day Level 3 Certification Course.

WHO SHOULD ATTEND?

- Police Members
- Civilian Police Members
- Architects
- Landscape Architects
- Urban Planners

Anyone involved or interested in designing safer, sustainable, more profitable environments.

FACILITATOR

Greg Perkins

Greg Perkins is a former (14 year) police officer with the London Police Department and is the principal owner of Liahona Security Consortium Inc (27 years). Mr. Perkins is a Certified CPTED Practitioner (CCP a CPTED BC designation) and is one of the foremost experts on CPTED in Canada.

Mr. Perkins received his Level I Basic and Level II Advanced CPTED Certification from Professor C. Ray Jeffery (Founder of CPTED) through the National Crime Prevention Institute (NCPI) at the University of Louisville (Kentucky).

He currently provides CPTED training throughout British Columbia, Canada and the United States. Liahona Security has been the sole source provider of CPTED training to the "E" Division RCMP for the past 22 years. He has lectured to Federal, Provincial, Regional and Municipal Governments and Design Professional Associations.

Mr. Perkins has published articles for the Planning Institute of BC (PIBC) News, E Division RCMP Horse & Rider Press, Canadian Property Management Magazine, Smart Growth BC and the City of Surrey's Crime Free Multi-Housing Newsletter.

Mr. Perkins is associated with such professional organizations as: International Society of Crime Prevention Practitioners (ISCPP), Canadian Association of Threat Assessment Professionals (CATAP), the International CPTED Association (ICA), the US CPTED Association, American Society for Industrial Security (ASIS Pacific Chapter) and is Co-founder & Chair of the non-profit Society - CPTED BC Association.
